### Club descriptions:

After School Clubs at Prep are not only fun, dynamic and appealing to children but also rich with experiences that build creative & verbal expression, critical thinking and self-regulation skills.

International Culture & Art	Students will learn about different international cultures through art & craft projects using various techniques to build imagination, creativity and artistic self-expression.
IQ/EQ Inspire & Excite	A wide range of stimulating and appealing group games and activities will develop visual, verbal and mathematical intelligence while boosting working memory, logical thinking and socio-emotional skills. Teachers will add in various hands-on activities to inspire and excite the children.
Dance & Performance	Children will explore different styles of dance and have the opportunity to reinforce public speaking skills. Body coordination develops through storytelling and musical activities, like performing song and dance routines, which will also improve self-esteem and build teamwork skills.
Science Exploration	Provides children opportunity to explore their world, stimulate their natural curiosity and express themselves creatively. This club uses science experiments and science-related art activities to build imagination, fine motor skills & individual responsibility.
Thai Style	Children participate in traditional Thai cooking, music, dance, art and crafts. They also learn Thai home skills and play traditional games to help them understand Thai values and culture.
